---

## PROFESSIONAL SUMMARY

Results-driven Software Developer with 4+ years of experience in designing, developing, and optimizing applications for Fortune 500 clients. Skilled in building microservices, developing APIs, and deploying applications in server environments. Expertise in **Java, Spring Boot, SQL, Azure, Jira Plugin Development** and **Linux**. Strong collaborator with a proven ability to streamline operations and enhance system reliability. Adept at using **OpenShift** and **Harness** for efficient application deployment.

## TECHNICAL SKILLS

**Programming Languages:** Java, Spring Boot

**Databases:** RDBM, NoSQL-Json

**Cloud Platforms:** Azure

**Operating Systems:** Linux

**Tools and Frameworks:** OpenShift, Harness, Apache Velocity, Jira, Confluence

**Other Skills:** Microservices development, API design, Server management, Jira plugin development, SQL, Git

**AI:** Prompt Engineering, AI Orchestration, Agentic AI development

## WORK EXPERIENCE

**Software Developer** - Tata Consultancy Services Dates: 01-Oct-21 to Present

---

### CLIENTS:

#### Walgreens Boots Alliance

- Built and maintained **microservices** using **Spring Boot** and **Azure**, ensuring seamless data transaction processing.
- Managed two critical microservices, enhancing their performance and reliability.
- Verified and maintained data integrity between cross-functional teams with **SQL** and cloud integration.

#### McKesson

- Verified production **data transactions** in document format.
- Ensured optimal server performance using **Linux** commands.
- Implemented **Java** code changes based on project requirements, ensuring timely delivery.

## Citi Bank

- Designed and developed **Jira plugins** using **Java Servlet** which integrates **AI** within Jira to write quality user stories.
- Created **Spring Boot APIs** for seamless Jira integration for Jira Data Center to **Cloud Migration**.
- Collaborated with cross-functional teams to develop **technical documentation** and ensure adherence to **coding standards**.
- Deployed applications using **OpenShift** and **Harness** for improved automation and efficiency.
- Built and maintained Python-based REST APIs using the **FastAPI framework**, integrating with **Oracle SQL databases** for efficient data access.
- Designed and implemented an **Agentic AI** chatbot leveraging **LLM** integration to generate tailored responses using organization-specific knowledge.

## EDUCATION

---

Bachelor of Technology – Computer Science and Engineering  
University Institute of Technology, RGPV Bhopal (2021)

## CERTIFICATIONS AND TRAINING

---

- Microsoft Azure AZ-900
- Google Cloud Generative AI
- Oracle Certified Associate, Java SE 8 Programmer
